

Duo-Record® Cards

One card monitors either a steam or gas sterilization cycle. Before a sterilization cycle, the colors are white (in word "steam")

and red (in word "gas"). After a steam cycle the white changes to black. After a gas cycle the red changes to green. The Duo-Record Card is then kept on file. Set includes 250 Duo-Record cards, plastic file box, 12 index guides, and metal card holder.

5263-26905000 Duo-Record Card Set

Once-A-Day® Autoclave Tests

Choice of test sheets or a pre-assembled test pack for the required daily testing of all pre-vacuum sterilizers by the Bowie and Dick technique. Provides easy-to-interpret visual proof that contents have passed through adequate sterilization cycle.

5263-26600400 Test Sheets, 31/bx
5263-26610300 Once-A-Day® Test-Pak, 30/cs

Biological Test Pack and Culture Service Program

For biological monitoring of sterilizer performance and operator technique in physician and dental offices. Each box contains 10 sterilizer test packs with spore strips, 10 sterilization report forms and 10 pre-addressed, postage-paid envelopes. To use, operator runs test pack through normal sterilization cycle and mails test strips to manufacturer's laboratory for culturing and evaluation. Third party documentation of sterilization efficacy is returned. Positive cultures indicating possible sterilizer problems are reported immediately by telephone.

5263-26906700 Biological Test Pack & Culture Service Program, 10/bx (Includes Laboratory Analysis)

OK® Indicator Strips

For steam sterilizer cycles of 250°F (121°C), 272°F (134°C).

Packed 250 strips per box, four boxes per shelf pack, five packs per case.

5263-26410100 4" x 9/16"
5263-26410300 8" x 9/16"

OK Indicator Strips

Strate-Line Indicator Strips

Strate-Line™ Indicator Strips

Provides positive, visible proof of steam penetration along entire length of strip. When sterilization is attained, a color change from white to a uniform black line occurs. Packed 250 strips per box, four boxes per shelf pack, five packs per case.

5263-26510100 Strate-Line™ Strips, 8" x 9/16"
5263-26510200 Smalstrip™ Strips, 4" x 9/16"

Gas-Chex® E.O. Indicator Strips

Monitor strips for E.O. gas

sterilization. Packed 250 strips per box, four boxes per shelf pack, five packs per case.

5263-26900100 4" x 9/16"
5263-26900200 8" x 9/16"

BI-O.K.™ Steam Test-Pak

Safely designed to comply with performance standards. Easy-to-use sterilization processing provides secure results that are effective and reproducible. The BI-O.K. steam test-pak delivers the convenience of a record that documents the date, department, temperature, cycle time, sterilizer and load number. The operator initials and test results are entered along with control results for permanent documentation that autoclave equipment is functioning properly.

5263-269205 20 pack w/5 controls
5263-269205 20 pack w/10 controls
5263-269205 20 pack w/20 controls

Propper WATS™

Weekly Autoclave Test System for professional offices. WATS is designed for standard gravity-displacement cycles in the range

of 250°F-273°F. Each of 12 envelopes provides the professional office a full four-week cycle of steam sterilizer performance testing with accurate, cost-effective weekly monitoring. It includes all necessary materials, and a biological test for the first week, and Vapor Line Integrator tests for weeks 2, 3, and 4.

5263-269064 WATS Weekly Autoclave Test System

Vapor Line® Reusable Steam Sterilization Process Challenge Test

Propper's new reusable process challenge test monitors for pre-vacuum sterilization processes at 273°F. The test is designed

for use with the Propper Vapor Line® Integrator and presents a significant challenge to steam penetration. Regular use of the test helps to ensure adequate steam penetration in wrapped, unwrapped solid, porous and hollow instrument loads.

5263-269069 Vapor Line® Reusable Steam Sterilization Process Challenge Test, Each

Propper Vapor Line® Integrator

Propper Vapor Line® Integrator is designed to react on all critical sterilization parameters and offers immediate readout with performance equivalent to a biological indicator.

- 5263-269008 Vapor Line Integrator with extender, 9" x 7/8", 250/pouch, 2 pouches/cs
- 5263-269009 Vapor Line Integrator without extender, 2" x 7/8", 250/pouch, 2 pouches/cs
- 5263-269005 Vapor Line Integrator without extender, 2" x 7/8", 100/pouch, 10 pouches/cs
- 5263-26900512 Vapor Line Integrator without extender, 2" x 7/8", 100/pouch, 5 pouches/cs
