

Medical Specifics 2200 Portable Aspirator

Medical Specifics, Inc. offers a wide range of aspirators from diaphragm to piston pumps. All diaphragm pumps will do at least 22" HG (569mmHG), and the piston group 25" HG (660mmHG) suction. The 2200 can be used in nursing homes, physician offices, clinics, hospitals and the homecare market. There are three types of collection systems available, shown with 750cc autoclavable glass bottle.

Schuco® by Allied™ S130 Aspirator

Completely portable and reliable. The regulator assembly has been modified, replacing the cap and float assembly with a hydrophobic bacteria filter. This filter prevents fluids and other contaminants from damaging the pump. This durable unit continues to meet the need for controlled vacuum regulation from 0-22" Hg with a flow rate of 28 lpm. Weighs 13.6 pounds, 1/15 hp motor, 115V, 60 Hz.

Medical Specifics 8000/8400 ProLine Aspirators

The Pro Line Models are unique and bring a whole new technology to the healthcare industry. The ProLine pulls from zero to 26" of mercury. The model 8000 provides constant suction, while the 8400 also allows intermittent operation. The piston motor delivers smooth, reliable aspiration. It's .1 micron hydrophobic capsule supplies superior protection from contagious matter. The ProLine is supplied with dual canisters, and a foot pedal control, which leaves the healthcare provider with hands-free operation, if desired. It weighs only 38 lbs. and is whisper quiet. Other power options are 220 volt 50 Hz (Model 8000V) and 230 volt 60 Hz (Model 8000V60).
