

## IMCO 6-Place Centrifuges

6-place centrifuges feature constant 3,400 RPM speed, integral aerosol and splash protection, automatic shutdown when cover is opened, and rotor with lifetime warranty. Maintenance-free brushless induction motor, efficient and quiet operation. 10 ml or 15 ml hardened aluminum shields. Available with on/off timer.

2980-V6000I 6-place centrifuge with On/Off Switch  
 2980-V6500I 6-place centrifuge with On/Off Timer

## Vulcon Clinaseal Safety Centrifuge

Features exclusive AeroLok technology that helps protect personnel from aerosols while maintaining sample temperature stability. The motor chamber is isolated from the spinning chamber and the chamber in turn is isolated from the outside environment. A brushless, permanently lubricated motor means no maintenance worries. The sturdy aluminum cabinet is covered with a durable, baked-on powder coating in an attractive tan color that compliments any environment. Designed for use by laboratories, physician's offices, veterinarians, and hospitals. 3 Year Warranty.

9590-CS6C Clinaseal 6 tube cap., , 30 min. timer  
 9590-CS8C Clinaseal 8 tube cap., 30 min. timer  
 9590-CS6X Clinaseal 6 tube cap., on/off switch

## Vulcon Clinaspin Economy Centrifuge

Rock solid and affordable, everything you want in a basic centrifuge. A brushless, permanently lubricated motor assures long life, reliability and sample temperature integrity. 3 Year Warranty.

9590-6C 6 tube cap., 30 min. variable timer  
 9590-8C 8 tube cap., 30 min. variable timer  
 9590-6X 6 tube cap., on/off switch

## Vulcon Quantum Large Capacity Centrifuge

Performs centrifugal blood cell separations, urine separations, and sperm cell washing. Offers the larger laboratory or hospital these important features: 24 place angle head, variable speed (calibrated in both RPM and RCF), and automatic braking system. 3 Year Warranty.

9590-QM100 Quantum 24 tube cap., 30 min. timer

## Vulcon Microspin Microhematocrit Centrifuge

Offers reliable microhematocrit determinations. The high speed motor assures rapid spin-downs, and the included reader is adjustable, allowing accurate readings in a variety of circumstances. Quieter operation than many similar units, the Microspin offers

superior performance and is quickly becoming the standard for rapid, no hassle hematocrits. Designed for use by laboratories, physician's offices, and veterinarians. 3 Year Warranty.

9590-MS24 Microspin, 5 min variable timer

## Vulcon Variseal

Variseal combines all the features of our best-selling Clinaseal centrifuge, with the added advantage of variable speed. The variable speed control conveniently indicates both RPM and RCF (Relative Centrifugal Force). The brushless, permanently lubricated motor ensures maintenance free operation. It performs centrifugal separation of blood cells from serum/plasma, urine separations and sperm cell washing. Designed for labor-atories, physician's offices, veterinarians and hospitals. 3 Year Warranty.

9590-VS6C Variseal 6 tube cap., 30 min. timer  
 9590-VS8C Variseal 8 tube cap., 30 min. timer

## Vulcon Mobilespin Automobile Centrifuge

Designed to be an "in the field" unit, deriving its DC power from the cigarette lighter receptacle in an automobile. Samples can be spun in the automobile or "in the field", helping to prevent analyte value shift caused by delayed centrifugation. Optional power converter for indoor use. 3 Year Warranty.

- 9590-126      Mobilespin 6 tube cap., 30 min. timer
- 9590-128      Mobilespin 8 tube cap., 30 min. timer
- 9590-PS126    115V/12V power converter

The Products Listed In This Catalogue Represent Only A Portion Of Those Available. Please Call Our Office Or See Your Sales Representative.

## Vulcon Hemo-Dyne Blood Rocker

Hemo-Dyne's gentle side-to-side rocking motion keeps drawn hematology samples thoroughly mixed prior to testing. Features an easily cleaned rubber tube holder. A synchronous motor and teflon bearings at all pivot points assure long, quiet and reliable service.

- 9590-BR01      Hemo-Dyne 14 tube blood rocker

## Vulcon Rototron Benchtop Rotator

Compact benchtop unit for rotational mixing needs. Suited for agglutination test cards, chemical mixing and other rotational mixing needs.

- 9590-RT10      Rototron 30 min variable time

## infuse your workflow
